MEDI VARSHITHA

As an aspiring tech professional currently pursuing a BTech in Information Technology. I aim to secure a position where I can continuously learn and effectively showcase my technical skills, contributing to both the company's success and my personal growth.

EXPERIENCE

INFOSYS SPRINGBOARD INTERNSHIP 5.0

INFOSYS, Virtual

Internship Oct 2024 - Dec 2024

Project : Smartphone Dataset for Anomaly Detection in Crowds.

PROJECTS

- **Crop Prediction Using Machine Learning .**

The project focuses on developing a machine learning-based system to predict suitable crops by analyzing factors such as soil quality, weather conditions, and crop patterns. This aims to enhance agricultural productivity, resource efficiency, and support sustainable farming practices.

- **Machine Learning framework for admission in engineering college**

The project focuses on developing a machine learning-based framework to predict and streamline admissions to engineering colleges. By analyzing factors like academic performance, entrance exam scores, and personal profiles, the system provides accurate admission predictions and recommendations.
